Re : Parental Permission to NOT follow SHS Teacher Recommendation

During the course registration process, the student's current teachers made recommendations regarding appropriate courses to take for the 2011-2012 school year. The teachers have a good understanding of the students' ability and their chances for success in the next course after having them in class. The recommendations are also based on the appropriate course sequence process at Springboro High School. We highly recommend that students discuss their options with school personnel and follow the teacher recommendations.

Please note: Requests to not follow teacher recommendation must be submitted to the principal by May 13, 2011. Course requests are locked in from May 13, 2011 until the beginning of the 2011-12 school year. This allows time to make our staffing decisions and also build our master schedule.

I realize that as a result of this request my son/daughter may have difficulty. While I realize this may result in lower grades, I believe a more challenging course will benefit my child. I want the change(s) even though I realize it goes against teacher recommendation(s).

I have reviewed my son's/daughter's course registration form for the 2011-2012 school year. I do not wish to follow the teacher recommendation and prefer my son/daughter take the following course:
